shower

Farming Tropical Rain
(lower button / shower)

mist

Alps morning haze
(middle button / mist)

jet

Relaxing wavy jet
(upper button / lower)

Farming Tropical Rain

Uses a large droplet shower that can wash wide areas at once. A jet of comfortable water envelops your entire body. Reminiscent of luxury hotel or spa, you can enjoy a luxurious bathing experience.

Tropical Rain

Alps morning haze

A refreshing spray of mist that resembles the morning fog of the Alps. The fine, gentle mist of water. It is less irritating to the skin and can be used comfortably even by people with sensitive or dry skin.

Sensory mist

Relaxing wavy jet

Alternating left and right massage jets create an unprecedented effect. The adjusting speed changes according to the amount of water flow and you can experience various strong and weak massage effects with the main water flow.

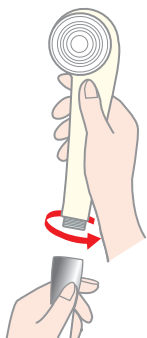

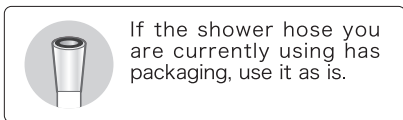

Relaxing jet

03 Installation method

1 Remove your current shower head

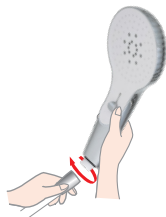

Hold the hose connector firmly and turn the hand shower counterclockwise to disconnect the connector.

2 Apply the body

Install the shower head by turning a clockwise.

 Please attach it firmly.

During installation, the seal may peel off easily. Hold the seal firmly and install it slowly so that it does not protrude.

veuillez noter

Removing the shower head: If this is difficult, you can use rubber gloves to easily remove it.

04 Precautions for use

This product is a shower head for the bathroom.

Please do not use it for any other purpose.

Do not dismantle the main body.

Never remove parts other than the maintenance section. Once disassembled, it cannot be used again.

Do not remove a worn seal

Damage to the seal may cause water leaks.

The water runs after use.

Droplets of water inside of showerhead may fall from the shower head after use. This is where the residual water in the head is drains off. This is not a malfunction.

Don't subject the product to strong impact.

Failure to do so may result in irreversible damage.

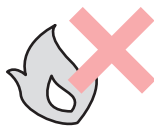

In the event of damage.

Please refrain from using the hand shower. The main body uses a metal coating that can become sharp and dangerous.

Do not place near a fire.

Do not let hot water run at more than 60°C

This could lead to distortion, etc.

Use within the applicable flow rate (12 litres per minute)

Excessive flow rates can cause serious damage, etc.

Do not use anything that distorts or discolours the resin.

Mold strippers, alcohol-based detergents, etc.
Can deform or discolour the resin.
